Just Kait to be featured on MTV's "Real World: Cancun" Season Finale

"La La (Start Me Up)" debuts on MTV's staple series.

LOS ANGELES, CA – At age 17, high school senior Kaitlyn DiBenedetto – who performs under the fitting alias "Just Kait" – will have her track "La La (Start Me Up)" featured in the season finale of MTV's "The Real World: Cancun." The finale airs 9/9/09, at 10:00PM ET/PT. The song is available free for a limited time here: www.transfermediagroup.com/MNR/justkait/just_kait.html

The feature comes on the heels of Just Kait's appearance on mtvU's VMA Tour at Six Flags, which she joined in Gurnee, IL (Chicago area) and Bowie, MD (D.C. area). Kait took the stage alongside All Time Low and White Tie Affair for the tour.

Just Kait's single "Sick" is currently being featured as the "Discover & Download" track on MTV, MTV2, and mtvU. Her 4-track digital EP "Being on TV" was released August 11th and produced by 2N2 Productions. Just Kait joins the likes of The Ting Tings, Duffy, Flo Rida, and Leona Lewis as the newest Discover & Download feature. "Sick" has also been chosen as the E! Network theme song for their Summer 2009 branding campaign. A segment featuring the song is airing for fourteen weeks, through August 29th.

A self-taught multi-instrumentalist, DiBenedetto began playing drums at age 5, picked up guitar at age 11, and started performing acoustic shows and collaborating with local bands shortly after. She then caught the ear of MTV last year by winning a contest which had invited musicians to create a new theme song for the "Parental Control" program. At just 17, the punk rock prodigy has risen to the national music platform with features on the MTV and E! Networks.
